

### The Economic Accounts for Agriculture can be split up into the following headings:

- + Total value of agricultural sales ex producer
- + Total income from agricultural services
- + Income from non-agricultural secondary activities
- + Total value of stock changes at producers
- = **Output of agricultural industry**
- Total intermediate consumption
- = **Gross value added at producer prices**
- + Subsidies on products
- Taxes and duties on products
- = **Gross value added at basic prices (GDP)**
- + General subsidies
- General taxes and duties
- = **Gross domestic product at factor cost prices.**

STATISTICS DENMARK

“The Economic Accounts for Agriculture (EAA) is a satellite account of the European system of national and regional accounts, adapted to the specific nature of the agricultural sector”

The EAA measure the total output (quantity x price ) of the agricultural activity which includes:

- Output sold (including trade in agricultural goods and services between agricultural units)
- Changes in stocks
- Output for own final consumption and own-account gross-fixed capital formation
- Output produced for further processing by other agricultural producers;
- Intra-unit consumption of livestock feed products.

In other words it measures Gross Domestic Products (GDP) at factor prices

STATISTICS DENMARK

### Danish EAA in figures

[www.statistikbanken.dk/LBFI1](http://www.statistikbanken.dk/LBFI1)

Gross domestic product at factor cost for agriculture by type and time

	DKK in Millions Year 2013
AGRICULTURAL GOODS, SOLD, TOTAL	80.537
AGRICULTURAL SERVICES	2.731
SECONDARY ACTIVITIES	925
Changes in stocks at farms, total	-2.375
<b>OUTPUT, TOTAL</b>	<b>81.819</b>
INTERMEDIATE CONSUMPTION, TOTAL	57.955
<b>GROSS VALUE ADDED AT PRODUCER PRICES</b>	<b>18.767</b>
Subsidies on products	246
Subsidies and taxes on products	71
<b>GROSS VALUE ADDED AT BASIC PRICES</b>	<b>18.942</b>
Subsidies, general	7.544
Taxes on production	792
<b>GROSS DOMESTIC PRODUCT AT FACTOR COST</b>	<b>25.694</b>

STATISTICS DENMARK

### Main elements of the EAA:

**Production Value**

- Sales products
- Agricultural services and secondary activities
- Changes in stock

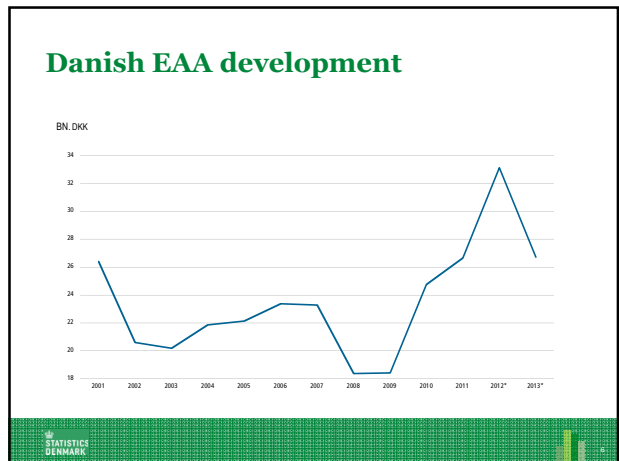

**Intermediate consumption**

- Seeds
- Energy
- Fertilizers
- Chemicals
- Feeding stuff
- Maintenance

**Fixed capital consumption**

- Labour input (hired)
- Subsidies and rents/interest
- Capital formation.
- Subsidies and taxes

STATISTICS DENMARK

## Output Data Sources

- Farmers
- Retailers
- Agricultural Consultants
- Dairies, slaughteries, Mink auctions
- Specialised companies
- Associations of growers
- "Standard calculations"
- No "city markets"

## Output (1) - from crops

### Crop output

- Cereals (Survey and Cooperatives)
- Industrial crops (Survey and agri experts)
- Forage plants (Farmers and agri experts)
- Vegetables and horticulture products (Survey)
- Potatoes (Survey and price statistics)
- Fruits (Major national retailer)
- Other crop products (seeds - survey)

## Output (2) - from animals

### Animals

- Cattle
- Cattle excluding calves
- Calves
- Pigs
- Equines
- Sheep and goats
- Poultry
- Chickens
- Other poultry
- Other animals

### Animal output

- Milk
- Cows' milk
- Other milk types
- Eggs
- Other animal products (fur)
