How to make your own list of addresses in other country (if you don't have addresses in file)?

- Open the application
- Open the configuration window and use *Clear Demo Adress Points*
- Drag the map to the other country
- Right click to *Set home position*
- Right click to add the address points to the list

Now you can run function of planning (for a day or many days) – for example like this..

The screenshot displays the AnkietPathFinder application window. The interface is divided into three main sections: a list of address points, a timetable, and a map.

List of address points: This section contains a list of addresses in Copenhagen, Denmark, with their distances from the starting point. The addresses are:

- Dronningens Tværgade 33, 1302 København K, Denmark (0.68 km)
- Rosengade 1, 1309 København K, Denmark (1.01 km)
- Sankt Pauls Gade 66, 1313 København K, Denmark (1.15 km)
- Bredgade 74A, 1260 København K, Denmark (1.34 km)
- Amaliegade 14A, 1256 København K, Denmark (1.01 km)
- Peder Skrams Gade 3, 1054 København K, Denmark (0.67 km)
- Toldbodgade 10B, 1253 København K, Denmark (0.93 km)
- Guldbergsgade 53B, 2200 København N, Denmark (2.17 km)
- Edith Rodes Vej 11, 2200 København N, Denmark (2.05 km)
- Blegdamsvej 9, 2100

Timetable: This section shows a timetable for the route, starting on 01 March 2017 at 00:00:00. The timetable is organized by day of the week (Monday to Sunday) and shows the sequence of stops (numbered 1 to 31) and the time taken for each segment.

Map: The map shows the route (highlighted in blue) through Copenhagen, Denmark. The route starts at the home position (marked with a red dot) and visits the address points in the order specified in the list. The map includes labels for various locations, streets, and landmarks.

The application window has a title bar with the text "APF_eng" and a menu bar with the text "AnkietPathFinder". The status bar at the bottom shows the system clock (17:47) and the date (2017-04-13).
