

Documentation – High Quality (HKD)

Charlotte Leolnar Reif

Research Services, Statistics Denmark

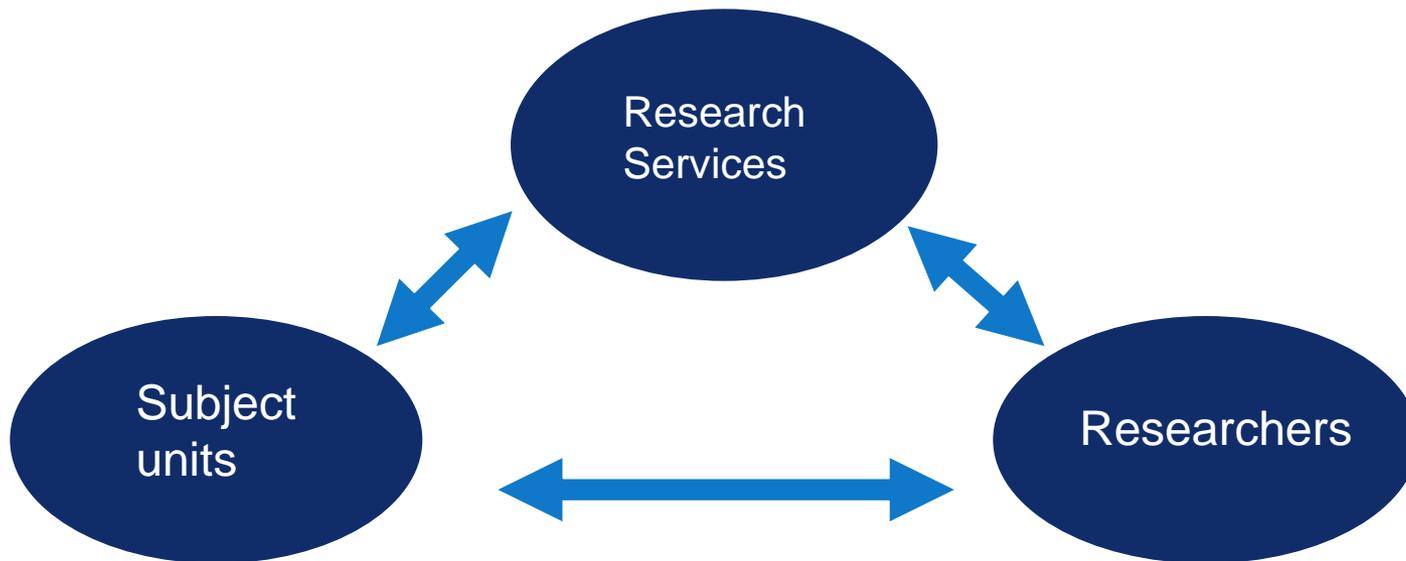

Historic background

- **Researchers demand for better documentation caused development of High quality documentation (HKD)**
- **Researchers familiar with TIMES-documentation system – expansion of existing documentation with new elements (historic, data breach et.)**
- **Financing – development/expansion of TIMES to HKD and every year since then**
- **690 variables documented since 2007/2008**

The process of producing the documentation

- **Corporation between researchers, subject units and research Services (one year process)**
- **Final approval by the steering committee. Payment is done at this time.**

Special template - examples

- **Systematic Documentation:**
 - Detailed variable description, including data breaches
 - Validity (period) /population
 - Tables and graphs
 - Formats
 - Appendices with special interest
