Not relevant for these statistics.

### **3.1 Source data**

Data is collected on forms filled in by the municipalities.

### **3.2 Frequency of data collection**

Yearly.

### **3.3 Data collection**

Forms

### **3.4 Data validation**

Under construction.

### **3.5 Data compilation**

Under construction.

### **3.6 Adjustment**

Not relevant for these statistics.

## **4 Relevance**

Not relevant for these statistics.

### **4.1 User Needs**

Users:

- Ministries, boards and agencies
- Local authorities
- Associations and trade unions
- Business advisers
- Commercial companies
- Researchers
- Teachers and students

### **4.2 User Satisfaction**

Not relevant for these statistics.

### **4.3 Data completeness rate**

Under construction.

## **5 Accuracy and reliability**

Under construction.

### **5.1 Overall accuracy**

Under construction.

### **5.2 Sampling error**

Not relevant for these statistics.

### **5.4 Quality management**

Statistics Denmark follows the recommendations on organisation and management of quality given in the Code of Practice for European Statistics (CoP) and the implementation guidelines given in the Quality Assurance Framework of the European Statistical System (QAF). A Working Group on Quality and a central quality assurance function have been established to continuously carry through control of products and processes.

### **5.5 Quality assurance**

Statistics Denmark follows the principles in the Code of Practice for European Statistics (CoP) and uses the Quality Assurance Framework of the European Statistical System (QAF) for the implementation of the principles. This involves continuous decentralized and central control of products and processes based on documentation following international standards. The central quality assurance function reports to the Working Group on Quality. Reports include suggestions for improvement that are assessed, decided and subsequently implemented.

### **5.6 Quality assessment**
