

**Documentation of statistics for
Child care in private kindergartens before school start 2021**

1 Introduction

To be implemented

2 Statistical presentation

To be implemented

2.1 Data description

To be implemented

2.2 Classification system

To be implemented

2.3 Sector coverage

To be implemented

2.4 Statistical concepts and definitions

Nursery: A daycare institution where children are enrolled from 0 years until they start kindergarten.

Kindergarten: A daycare institution where children are enrolled from when they progress from the nursery until they start school.

Age-integrated institution: A daycare institution where children are enrolled from 0 years until they start school.

Employment period in a daycare institution: The period an employee is employed in a daycare institution, with a set number of hours per week. Changes in weekly hours, education or position will cause a new employment period.

Enrollment period in a daycare institution: The period a child is enrolled at a daycare institution, with a set number of hours per week. Changes in weekly hours will cause a new enrollment period.

Kindergarten progression age: The age children enrolled in age-integrated institutions are moved from nursery to kindergarten. The age is set by the municipality.

2.5 Statistical unit

To be implemented

2.6 Statistical population

To be implemented

2.7 Reference area

To be implemented

2.8 Time coverage

To be implemented

2.9 Base period

To be implemented

2.10 Unit of measure

To be implemented

2.11 Reference period

To be implemented

2.12 Frequency of dissemination

To be implemented

2.13 Legal acts and other agreements

To be implemented

2.14 Cost and burden

To be implemented

2.15 Comment

To be implemented

3 Statistical processing

To be implemented

3.1 Source data

To be implemented

3.2 Frequency of data collection

To be implemented

3.3 Data collection

To be implemented

3.4 Data validation

To be implemented

3.5 Data compilation

To be implemented

3.6 Adjustment

To be implemented

4 Relevance

To be implemented

4.1 User Needs

To be implemented

4.2 User Satisfaction

To be implemented

4.3 Data completeness rate

To be implemented

5 Accuracy and reliability

To be implemented

5.1 Overall accuracy

To be implemented

5.2 Sampling error

To be implemented

5.3 Non-sampling error

To be implemented

5.4 Quality management

Statistics Denmark follows the recommendations on organisation and management of quality given in the Code of Practice for European Statistics (CoP) and the implementation guidelines given in the Quality Assurance Framework of the European Statistical System (QAF). A Working Group on Quality and a central quality assurance function have been established to continuously carry through control of products and processes.

5.5 Quality assurance

Statistics Denmark follows the principles in the Code of Practice for European Statistics (CoP) and uses the Quality Assurance Framework of the European Statistical System (QAF) for the implementation of the principles. This involves continuous decentralized and central control of products and processes based on documentation following international standards. The central quality assurance function reports to the Working Group on Quality. Reports include suggestions for improvement that are assessed, decided and subsequently implemented.

5.6 Quality assessment

To be implemented

5.7 Data revision - policy

Statistics Denmark revises published figures in accordance with the [Revision Policy for Statistics Denmark](#). The common procedures and principles of the Revision Policy are for some statistics supplemented by a specific revision practice.

5.8 Data revision practice

To be implemented

6 Timeliness and punctuality

To be implemented

6.1 Timeliness and time lag - final results

To be implemented

6.2 Punctuality

To be implemented

7 Comparability

To be implemented

7.1 Comparability - geographical

To be implemented

7.2 Comparability over time

To be implemented

7.3 Coherence - cross domain

To be implemented

7.4 Coherence - internal

To be implemented

8 Accessibility and clarity

To be implemented

8.1 Release calendar

The publication date appears in the release calendar. The date is confirmed in the weeks before.

8.2 Release calendar access

The Release Calendar can be accessed on our English website: [Release Calendar](#).

8.3 User access

Statistics are always published at 8:00 a.m. at the day announced in the release calendar. No one outside of Statistics Denmark can access the statistics before they are published.

8.4 News release

To be implemented

8.5 Publications

To be implemented

8.6 On-line database

To be implemented

8.7 Micro-data access

To be implemented

8.8 Other

To be implemented

8.9 Confidentiality - policy

To be implemented

8.10 Confidentiality - data treatment

To be implemented

8.11 Documentation on methodology

To be implemented

8.12 Quality documentation

Results from the quality evaluation of products and selected processes are available in detail for each statistics and in summary reports for the Working Group on Quality.

9 Contact

To be implemented

9.1 Contact organisation

Statistics Denmark

9.2 Contact organisation unit

To be implemented

9.3 Contact name

Jonas Ellemand

9.4 Contact person function

Responsible for the statistics

9.5 Contact mail address

Sejrøgade 11, 2100 Copenhagen

9.6 Contact email address
