

Micro-data access system for researchers

Information about researchers and researches

researchers

researches

Research
institutes

monitoring work process of
the researcher, research and
other inquiries

Calculation of working hours by
various characteristics

supervision of researcher's
activities

Supervision of the output the
researcher requests

Technology supervision

supervision of hardware,
software and installed
statistical programs

Helpdesk service

Access to individual
record file and info.
About files for
researchers

PUF

MUC

Research room
confidentiality level
files (incl. files shared
with other gov. offices)

Statistical meta-data all
info on definitions,
variables, explanations
about processes and
more..

פתיחת פניה ובקשות נוספות

researcher

Deputy Gov.
Statistician

Accounting

Confidentiality
committee

Committee for
trans. Info.

Legal advisor

Research
institutes

Etc..

File and variable
catalogue (original
ICBS documents)

Record and variable retrieval system for research files

Researcher files

Labor
force

income

transport

education

Census

Statistical and
administrative MD
files

Identity encryption
tools

Tool for securing
statis.
confidentiality

Statistical
programs

Auto save of all existing data including retrieval capability of researchers, researches and processes

In certain elements, the system will interface with the form A system, PUF file system and the website
