

# Cooperative agreements between government entities

# Cooperative agreements between government entities

Data sharing between government institutions is vital for the compilation of statistics of high quality.

The statistical bureau is dependent on source data from the relevant ministries responsible for the economic data for government.

# Cooperative agreements between government entities

Cooperative agreements as a way of ensuring the quality of the statistics:

- What are the data needs at CBS and who has the source data?
- Responsibilities
- Limits
- Submission dates and ways of data transmission
- Steering group (and working group)
- Contact persons
