

DISSEMINATION OF STATISTICS

09 December 2015, Yerevan

THE MISSION

The mission of the National Statistical Service of the Republic of Armenia (NSSRA) is to collect, publish and disseminate official statistics for public use.

Main means of dissemination

- ❖ The main means of dissemination of statistical information is the official webpage of NSSRA: <http://www.armstat.am> (mirror webpage: <http://www.armstat.info>), as well as <http://www.armstatbank.am> and <http://www.armdevinfo.am>
- ❖ The majority of statistical publications of the NSSRA have paper print version and are released according to the Programme of the current year and in accordance with Release Calendar of Statistical Publications under this programme.
- ❖ All publications are available for users at the same time
- ❖ Statistics quality documentation

Types of statistical publications

- **Release Calendar of Statistical Publications**
- **Documentation**
- **Data bases**
- **Catalogue of statistical publications**
- **Statistical publications**
- **Press releases**
- **Social media**
- **Other thematic publications**

All publications are released in certain periodicity (monthly, quarterly, semi-annually, annually)

Activities for the improvement of statistical information dissemination

- To consider the new and changing needs of the users,
- To provide transparency in public discussions,
- To enhance the cooperation with different user groups,
- To update official statistical portal.

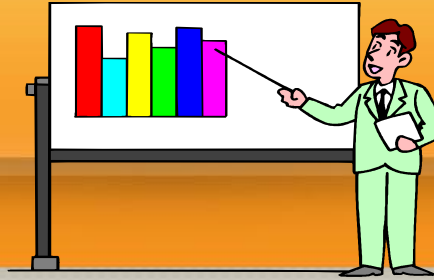

Activities for cooperation with mass media

- To strengthen cooperation/communication with mass media,
- To develop an annual user training program with the involvement of relevant topics and target groups (specifically mass media),
- To have frequent meetings, discussions, seminars for them about relevant selected topics.

FUTURE ACTIVITY

- ❖ Improvement of statistics dissemination
- ❖ Strategy for Statistics dissemination
- ❖ Meeting user needs more comprehensively

Thank you
