---

---

---

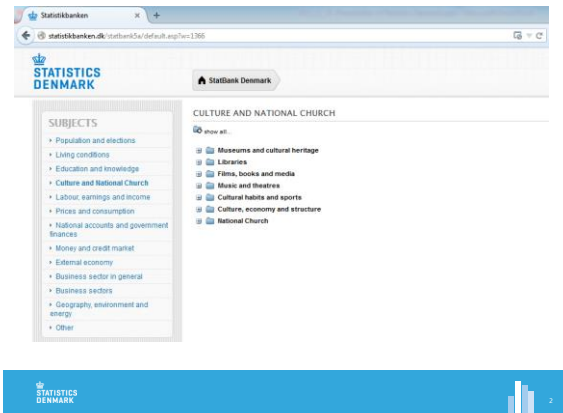

---

---

---

## Museums

Purpose	Describe the number of visitors to museums and opening hours.
Data source	Museums
Collect method	Electronic Survey
Populations / sample size	Total inventory from 280 museums
Central variables	Visitors, young visitors, opening hours, subsidies, type of museum
Frequency of publishing	Annual
Number of tables	3

---

---

---

---

---

---

---

---

## Zoological facilities and botanical gardens

Purpose	Describe opening hours, number of visitors to Zoos, Aquariums and Botanical gardens
Data source	Zoos, Aquariums, Botanical gardens
Collect method	Electronic survey
Populations / sample size	Total inventory
Central variables	Area, type of facility, visitors, opening hours
Frequency of publishing	Annual
Number of tables	1

---

---

---

---

---

---

---

---

## Archives

Purpose	Provide comprehensive overview of the Danish archives sector
Data source	Data collected from the National Archives, Organisation of Danish Archives and Association of Local Archives
Collect method	Single delivery
Populations / sample size	Total inventory
Central variables	Size of holdings, accessed records, visitors, employees
Frequency of publishing	Annual
Number of tables	2

---

---

---

---

---

---

---

---

## Public libraries / Research libraries

Purpose	Activity in the area of public libraries and research libraries in Denmark.
Data source	Public and research libraries and authorities
Collect method	Electronic survey
Populations / sample size	97 (public), 60 (science libraries). Total inventory
Central variables	Loans, stock, employees, number of loaners, user, visitors, economy figures
Frequency of publishing	Annual
Number of tables	20

---

---

---

---

---

---

---

---

## Cinemas and movies

Purpose	Describe the Danish structure of cinemas, the number of films shown an audience and the number of tickets sold
Data source	Distributors of movies
Collect method	Copies of invoices from film distributors
Populations / sample size	Total inventory
Central variables	Number of cinemas, screens, seating capacity, seats
Frequency of publishing	Annual
Number of tables	6

---

---

---

---

---

---

---

---

## Newspapers and magazines

Purpose	The purpose of the statistics is to describe circulations on newspapers and magazines
Data source	The Danish Audit Bureau of Circulation
Collect method	Data acquired from web published reports
Populations / sample size	Total
Central variables	For each newspaper or magazine is a permitted total, spread on weekdays and Sundays
Frequency of publishing	Annual
Number of tables	3

---

---

---

---

---

---

---

---

# Radio and TV

Name	Radio and TV statistics, Equipment statistics, Appliances and distribution
Purpose	These statistics are meant to provide easy, simple access to basic facts on the reception of electronic media in Denmark. For example, they show how many households receive TV via cable, satellite dish or aerial, and the proportion with special reception appliances.

Central variables	Keyvariables are cultural domain, payment, recipients, region, adult/childrenrecipients and time
Frequency of publishing	Annual
Number of tables	11

# Occupational and labor market statistics

Purpose	Provide overview on workplaces and persons employed in the culture sector.
Data source	Business register (occupation), LFS
Collect method	No datacollection. Only registerdata
Populations / sample size	-
Central variables	-
Frequency of publishing	Annual
Number of tables	5

---

---

---

---

---

---

---

---

# Book production

Purpose	Get overview on published books. The statistic shows number of produced books, not titles.
Data source	Danish National Bibliography
Collect method	Complete delivery
Populations / sample size	Total
Central variables	Produced books
Frequency of publishing	Annual
Number of tables	5

---

---

---

---

---

---

---

---

# Music schools

Purpose	Provide overview on activity at danish music schools
Data source	Music schools, authorities
Collect method	Datafile delivery (detailed data), electronic survey
Populations / sample size	Total inventory
Central variables	Region, age, status on students, instrument, staff
Frequency of publishing	Annual
Number of tables	5

---

---

---

---

---

---

---

---

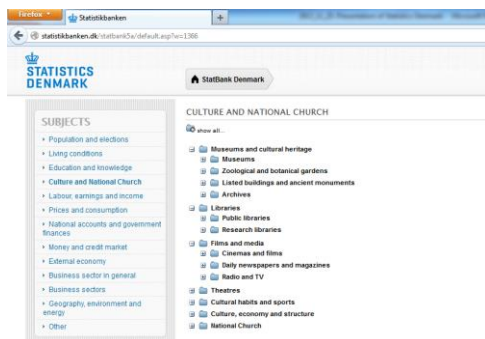

## Sources of data

- Statistics Denmark uses several methods of data gathering:
  - Surveys – normally performed electronic, but paper schemes is used
  - Public register sources
  - Cooperation with authorities and branch organisations. Delivery of inventories.

## Dissemination of statistics

- All produced statistics are to be published and disseminated at the [www.statistikbanken.dk](http://www.statistikbanken.dk)
- Some publications, paper or e-book, may come in addition, but they are not mandatory.
