

Survey Management Labour Force Survey

Twinning 2016

- Longitudinal survey – sample of persons
- **Labour Force Survey – sample of dwellings**

Labour Force Survey in Israel

- Main survey performed by the ICBS among households
- Used for ongoing tracking of the developments in the Israeli labour force, its size, characteristics, etc.
- Provides detailed data on the characteristics of the labour force by age, years of schooling, type of last school, industry, occupation, etc.
- Tool for collecting statistical data on housing conditions, occupational mobility and many other topics.

Sample and Work Processes

- ◉ Unit of investigation - dwelling
- ◉ Definition of household: Persons living in a dwelling that have a shared expense budget for food
- ◉ Proxy interview: Each adult over age 18 can give information on everyone in the household
- ◉ Survey with an obligation to respond

Investigative Method

- Each year about 18,000 dwellings are sampled
- The sample is divided into 12 groups (panels) over a 12 month period
- Each panel is surveyed 8 times:
 - 4 times during 4 consecutive months
 - Break for 8 months
 - Then surveyed 4 times during 4 consecutive months
- Each month we deal with about **12,000** cases (8 panels), each week with **3,000**
- The first panel (wave) is in the field, panels 2-8 are by cati from the Collection Center

Continuation of the Investigation

- Each month – 4 weeks of surveying
- “Survey week” chosen for each dwelling remains set for the entire survey, in the following waves of the survey
- The total period of investigation for each dwelling is **2 weeks**
- An interview lasts approximate 15 minutes by capi, by cati, about 10 minutes.

Labour Force Survey – Challenges

- Conducting the survey in a short period – maximum of 10 work days, mainly in afternoon hours
- Dealing with shortage of survey-working days:
Adding additional work days on Fridays, survey-taking hours in the morning
- Dealing with shortage of interviewers, security situation, weather: Transfer to cati center

Supervision Tables of Labour Force Survey

- ◉ Survey Progress

- ◉ By Supervision
 - ◉ By interviewers
 - ◉ By locality
- ◉ Interviewers' trips to the field and effectiveness
- ◉ Transfer of questionnaires to cati, by reasons of not being surveyed

[illegible]
