

Sattellite Account on Welfare- Present Situation and Needs

Nava Brenner
Director of the Social Services Accounts sector

Surveys on Welfare

- Welfare in the Business sector – currently conveyed as a part of the survey of trade and services, by the department of Business. More details will be presented by Ronit Nissenboim. We need a complementary survey for building a satellite account – more detailed income and expenditure of welfare private institutions, and number of patients and employees in each group.
- Welfare expenditure and finance in Gov. ministries and Local Authorities – More details will be presented by Galina Braverman

Surveys on Welfare

- Welfare expenditure and income in the non-profit institutions – an ongoing survey by our sector: conveyed every second year.
- Human resources dedicated to Welfare, by sector of performance, by occupation, education and gender: Survey conducted by the Israeli center of Philanthropy in the Hebrew University of Jerusalem – (just started) by Prof. Hillel Shmid in collaboration with ICBS. Data on employees and patients will be gathered through this survey.

**THANK YOU FOR YOUR
ATTENTION!**
