EU-ARMENIA TWINNING PROJECT
Activity 1.5
Website improvement I

Statistical Information Dissemination

Yerevan, 30 August - 2 September 2016

STATISTICS DENMARK

Mandatory result

Mandatory result MR1 related to this activity

Statistical Information Dissemination System improved

Benchmarked by

- Statistical Information Dissemination System in place (July 2017)
- Statistical Information Dissemination System Strategy paper developed and adopted by the State Council on Statistics (July 2017)
- User satisfaction survey questionnaire updated, tested and published at the NSSRA website (July 2017)

Purpose and expected output of 1.5

Purpose

- Discussion on how to improve the website to increase user-friendliness and usability
- Evaluation of current web platform in terms of potential for improvement within the project

Expected output

- Mission Report with recommendations for improvement of NSSRA's websites.
- A lining up of work programme for the next activities:
  - 1.6: Website improvement II (17-20 January 2017)
  - 1.8: Follow-up on achievements (April 2017)

Conclusions

- Armstat.am organized by products / type of information – should be by subject

- No direct EU requirements
  - Derived from CoP & QAF √

- Staff vision for changes reflects best practices

- Armstat.am can be reorganized
  - IT platform – is burning
  - New hardware and **software** need to implement best practices

- PX-Web – www.armstatbank.am should be updated
  - Work has started

Recommendations

- PX-Web www.armstatbank should be upgraded
  - New version – work in progress
  - Add more data – Pre condition for new cross cutting web site
- Include / develop plan for extensive rework of armstat.am in future projects (WB? or EU?)
  - Navigation / user interactions based on subjects not products
  - Based on user needs / dialogue
  - Update visual indentity – base content on data from armstatbank.am

Road map and short term plan

- ## Simplify *armstat.am*
  - Sort cards – make a paper model / mock up – end of December 2016
  - Implementation January 2017 → April 2017

- ## Upgrade *armstatbank.am*
  - Software in progress (Deadline: End of September 2016)
  - Plan for adding more data (Deadline: End of November 2016)
    - Gender / Percentages / Regions / Municipalities / age groups / economic
    - Interactions / Visualization needs this type of data
  - Identify missing data (Deadline: End of March 2017)
  - Add all outstanding data (Deadline: End of 2017)

Road map and long term plan

- Include re-launched armstat.am in future project or other new projects
  - Hardware, software, user experience and visual identity
  - Structure must be subject oriented and cross cutting
