## Preface

*Main Indicators* is a monthly publication containing tables showing statistics which are produced monthly or quarterly. The table contents are updated as soon as more recent figures are available.

Each monthly issue contains a text section with figures highlighting the general trends in the Danish economy.

Moreover, the publication contains an Economic-political calendar (in Danish only), which is a textual outline of events that are important for the evaluation of Danish economic trends in recent years.

In addition subscribers to *Main indicators* have access to the electronic pdf-version on [www.dst.dk/mainindicators](http://www.dst.dk/mainindicators).

An annual *Supplement* with brief comments and references to the tables is issued separately in connection with the first monthly edition of *Main Indicators*. In addition, the Supplement contains an Economic-political calendar for the latest five years.

The editing of this issue ceased on 15 January 2010.
