## Preface

This is the 108th edition of the Statistical Yearbook.

The Statistical Yearbook is a reference work, the purpose of which is to present comprehensible and illustrative information about social and economic conditions in Denmark. The Statistical Yearbook is also a guide to official statistics.

In addition to statistics compiled by Statistics Denmark, the Yearbook also includes data compiled by other Danish institutions or authorities (sources are indicated).

We always welcome any comments or suggestions from our users. Please e-mail your suggestions to [mpb@dst.dk](mailto:mpb@dst.dk)

The *printed* version of the Statistical Yearbook will only be available in Danish. However, an English version of the Yearbook will be accessible, free of charge, in electronic format on Statistics Denmark's homepage [www.dst.dk](http://www.dst.dk). The Danish version of the Statistical Yearbook will also be located on this homepage.

This edition, as previous editions, includes two independent sections containing information in summary form about the Faeroe Islands and Greenland, as well as a concluding section with international tables.

The Yearbook concludes with a *complete* list of definitions and glossary in alphabetical order.

The tables and texts in the different sections of the Statistical Yearbook are compiled by those divisions in Statistics Denmark which cover the subjects concerned. The book is edited by Margrethe Pihl Bisgaard, Senior head clerk, and Philip Sonne, Head of section.

If there are any subsequent errors in the book, corrections to the page in question will be available on our web site at: [www.dst.dk/yearbook](http://www.dst.dk/yearbook).

Statistics Denmark, May 2004

Jan Plovsing / Leon Østergaard

<b>Symbols</b>	»	Repetition
	-	Nil
	•	Not applicable
	0	Less than 0.5 the final digit shown
	0,0	Less than 0.05 the final digit shown
	. .	Available information not conclusive or withheld owing to nondisclosure practice
	. . .	Data not available
	*	Provisional or estimated figures
	—	Break in a series, which means that data above the line are not fully comparable with data below the line

Due to rounding, the figures given for individual items do not necessarily add up the corresponding totals shown.
