Um Zeit und Kosten zu sparen, sind in gegenwärtigem Hefte einige Veränderungen vorgenommen.

Die Listen über die Waaren-Ein- und Ausfuhr nach und von dem, aus dem Königreich Dänemark, den Herzogthümern Schleswig und Holstein und dem Fürstenthum Lübeck, bestehenden Zollverein, sind in derselben Ausdehnung wie bisher, obgleich in einer mehr gedrängten, einen besseren Ueberblick gewährenden Form mitgetheilt. Die nächstletzte verticale Rubrik in der Tabelle über die Waareneinfuhr ist in den frühern Hefen „Verzollt“, im gegenwärtigen Hefte aber „Zum Consum clarirt“ benannt worden. Es sind nämlich hierunter sowohl die verzollten Quantitäten zollpflichtiger, als die zur Clarirung gekommenen zollfreien Waaren begriffen.

Die Schifffahrtslisten sind dahin verändert, daß die detaillirte Uebersicht im dänischen Tabellenwerk über die Fahrt auf das Ausland nach und von den einzelnen Zollämtern in den Herzogthümern Schleswig und Holstein, mit Ausnahme der wichtigsten Orte, (Flensburg und Kiel) weggelassen und nur die Gesamtsumme für jedes Herzogthum aufgenommen worden ist. Dagegen enthalten die in deutscher Sprache abgefaßten Tabellen nach wie vor eine detaillirte Uebersicht über diese Fahrt, während umgekehrt in selbigen die Schifffahrt der einzelnen Zollämter des Königreichs auf das Ausland, mit Ausnahme von Kopenhagen, ausgelassen worden ist. Einem etwanigen Mangel in den Schifffahrtslisten wird für die Zukunft dadurch abgeholfen werden, daß für das Jahr 1847 und ferner eine Recapitulation über die Nationalität der verschiedenen fremden Fahrzeuge, welche im Laufe des Jahres an der inländischen Schifffahrt der Monarchie und der Fahrt auf das Ausland Theil genommen haben, aufgenommen werden wird.

Neu aufgenommen ist eine Uebersicht hinsichtlich der Ein- und Ausfuhr und Schifffahrtsbewegung des Freihafens Altona, welche in Ansehung der Waaren bewirkt worden ist durch nachstehende Aufforderung des Oberpräsidii vom 9ten Novbr. 1846:

„Das Königliche General-Zollkammer- und Commerz-Collegium hat, in Erwägung der Wichtigkeit, welche das Zuwegebringen zuverlässiger Nachrichten über den Umfang und die Richtung der hiesigen Handelsbewegung nicht nur im Allgemeinen, sondern namentlich auch mit Beziehung auf die Verhandlungen über abzuschließende Handelsverträge für die Verwaltung hat, sich veranlaßt gesehen, Erkundigungen darüber einzuziehen, wie in andern Freihäfen dergleichen Nachrichten herbeigeschafft werden, und nachdem in dieser Beziehung das hiesige Königliche Commerz-Collegium und die Gesellschaft der Commercirenden vernommen worden, beschlossen, daß künftig, und zwar vom laufenden Jahre angerechnet, dergleichen statistische Nachrichten über den Umfang der Ein- und Ausfuhr von Waaren für Altona, so wie der durch hiesige Handlungshäuser sonst vermittelten Waarenbewegungen, gesammelt und zusammengestellt werden sollen.

„In allen Städten innerhalb der Zolllinie lassen sich diese Nachrichten mit großer Genauigkeit den Büchern des Zollwesens entnehmen, und liegen die Resultate der aus diesen Quellen geschöpften Zusammenstellungen theilweise bereits in den ausführlichen Arbeiten der allerhöchst angeordneten Commission für das statistische Tabellenwerk vor.

„In Altona, wie in andern Freihäfen, sind diese Nachrichten nur durch die Aufgaben der Handeltreibenden selbst zusammen zu bringen, und werden zu dem Ende von der Königlichen Fabrikcontrole, welcher die Zusammenstellung jener Angaben für Altona übertragen ist, den einzelnen Handeltreibenden Schemata zur Ausfüllung zugestellt werden, in welche jeder Kaufmann die durch ihn vermittelte Waaren-Einfuhr und Ausfuhr, sowohl land- als wasserwärts, zu verzeichnen, und die so ausgefüllten Schemata der Königlichen Fabrikcontrole bald nach dem Schlusse des Jahres, und jedenfalls im Laufe des Januar-Monats des folgenden Jahres, wiederum zuzustellen haben wird. Zu

besserer Veranschaulichung, in welcher Weise diese Schemata auszufüllen sind, wird von der Königlichen Fabrikcontrole zugleich ein als Beispiel ausgefülltes Schema mit vertheilt werden.

„Es wird zugleich hiedurch bekannt gemacht, daß das Königl. General-Zollkammer- und Commerz-Collegium, in Berücksichtigung der desfalls ausgesprochenen Wünsche des hiesigen Handelsstandes, und um jede Besorgniß zu entfernen, als könne durch die Mittheilung dieser Nachrichten den Handelsbeziehungen des einzelnen Kaufmanns ein Nachtheil durch Veröffentlichung seiner Verbindungen erwachsen, der Fabrikcontrole zur Pflicht gemacht hat, keinem Mitgliede des Handelsstandes von den Aufgaben des einzelnen Kaufmannes Mittheilung zu machen, und wird diese Vorschrift auf das Strengste befolgt werden.“

In der Seite 206—256 mitgetheilten Nachricht sind die Quantitäten der von den Herzogthümern nach Altona versandten Waaren (cfr. Seite 78—122) und die zu den, von Altona nach dem zollpflichtigen Inlande gemeldeten, Fabrik- und Handwerkerwaaren verwendeten Rohproducte (cfr. Seite 257 und 258) mitbegriffen. Letztere Nachricht ist den amtlichen Listen der Fabrikcontrole entnommen und fügen die Zollbegünstigungen sich auf das Patent vom 13. December 1843.
